

Gasoline Powered Garden Tiller

This gasoline powered tiller is a robust machine for preparing soil. It delivers power for tilling gardens, vegetable patches, and small agricultural plots.

Product Overview

Robust Soil Cultivation

This gasoline-powered garden tiller is a robust and efficient machine designed for optimal soil cultivation and preparation. Its compact design and high maneuverability make it perfectly suited for navigating tight spaces in gardens, vegetable patches, and small agricultural plots. With adjustable tilling depth and width, it provides the versatility needed for customized soil preparation to meet specific planting requirements.

Technical Specifications

Tilling Width	600 mm
Power Source	Gasoline Engine

Features

Best Suited For

Gardens • Vegetable Patches • Small Agricultural Plots

Key Features

Adjustable Tilling Depth, Adjustable Tilling Width, Ergonomic Handle, Compact Design
