

# Gasoline Powered Water Pump

This gasoline powered water pump is a robust and reliable solution designed for various agricultural and industrial applications. Powered by a gasoline engine, this pump offers high performance and portability.

## Overview

### Robust Gasoline Water Pump

The DKHW51 is a reliable and high-performance water pumping solution engineered for demanding agricultural and industrial environments. Featuring a durable protective frame, this pump is designed for longevity and resistance to harsh operating conditions. Its efficient engine and user-friendly controls make it an ideal choice for irrigation, drainage, and general water management tasks.

## Technical Specifications

Fuel Tank Capacity	4 L
Model Identifier	DKHW51

## Key Features

### Design Highlights

Protective Frame • Portable • Durable Construction

Suitable Applications	Agricultural Irrigation, Industrial Drainage, Water Management
