Product Overview

High-Performance Water Transfer

This gasoline-powered water transfer pump is engineered for reliability and high-efficiency performance in demanding environments. Featuring a robust 7HP engine and a 212cc displacement, it provides consistent power for irrigation, dewatering, and construction tasks. Its self-priming design ensures quick setup, while the portable frame allows for easy transport to remote locations without access to electrical power.

Engine Specifications

Engine Power	7 HP
Displacement	212 cc
Bore x Stroke	70 x 55 mm

Performance Metrics

Key Performance Metrics

1000 L/min
Max Flow Rate

28 m
Max Lift Height

7 m
Suction Lift
