

Gasoline Powered Water Transfer Pump

This high-performance agricultural pump is designed for irrigation and water transfer. It features durable construction with a cast iron pump housing and impeller, ensuring long-lasting reliability.

Product Overview

High-Performance Agricultural Water Pump

This robust gasoline-powered water transfer pump is engineered for efficient irrigation and water management across farms and gardens. Featuring a durable cast iron housing and impeller, it is built to withstand demanding agricultural environments while ensuring long-lasting reliability. Its portable design and user-friendly interface make maintenance and operation straightforward for professional and commercial applications.

Technical Specifications

Power Source	Gasoline Engine
Construction Materials	Cast Iron Housing, Cast Iron Impeller

Key Performance Metrics

Performance Highlights

1 Yes

High Flow Rate Capability

1 Yes

High Pressure Output

Features

Operational Features

- Easy portability
- Accessible maintenance components
- User-friendly interface

Applications

Suitable Applications

Irrigation • Water Transfer • Farms • Gardens
