

Gasoline Powered Wood Cutting Saw

This gasoline saw is designed for cutting wood. It features a durable chain, ergonomic handle, and safety features such as a chain brake.

Product Overview

High-Performance Wood Cutting Solution

This gasoline-powered chainsaw is engineered for both professional and residential wood-cutting applications. It features a reliable high-speed engine and ergonomic design to ensure comfort and precision during extended operation. With integrated safety mechanisms like a chain brake and durable construction, this tool offers a robust solution for demanding sawing tasks.

Technical Specifications

Rated Output Power

1.2 kW

Rated Output Power

Engine Displacement	37.2 cc
Engine Speed	11000 r/min
Idling Speed	3400 r/min
Cutting Length	355 mm

Capacities

Fuel Tank Capacity	310 ml
Oil Tank Capacity	210 ml

Compliance and Quality

Certifications	CE, GS
Production Date	01/2020
