

Glass Electric Tea Kettle with Infuser

This electric kettle features a glass body and a stainless steel infuser basket for brewing tea. It is designed for heating water and brewing tea directly in the kettle.

Product Overview

Glass Electric Tea Kettle with Infuser

This compact electric kettle features a durable glass body, allowing for clear visibility during the heating process. Equipped with a stainless steel infuser basket, it is specifically designed for brewing tea directly within the unit. The sleek black plastic base houses integrated controls, while the ergonomic handle and matching lid ensure ease of use and safety.
