Product Overview

Overview of the GPS-enabled guard tour system capabilities and technical specifications.

Advanced Guard Tour Management

This GPS-enabled guard tour system utilizes dual-mode localization (GPS+Beidou) to provide superior tracking accuracy for security personnel. The device supports real-time data transmission to a central management system, allowing for instant map visualization and remote oversight of field teams. Built for demanding environments, it features robust IP67-rated protection and long-lasting battery performance to ensure reliable operation.

Technical Specifications

Ingress Protection Rating

IP67 Waterproof • Dustproof • Damage-resistant

Localization Technology

GPS, Beidou, Dual-mode

Battery Capacity

5400 mAh

Record Storage Capacity

60000

Physical Dimensions

Dimensions	125mm x 52mm x 27mm
Weight	227 g

Features & Functionality

Communication Capabilities <ul style="list-style-type: none">• 4G HD Voice Calls• Emergency SOS Button• 5 Pre-set Emergency Numbers• Remote Parameter Updates	
Integrated Sensors & Alarms	Impact Detection, Man-down Alarm, Pedometer, Alarm Clock
Charging Interface	Magnetic USB Cable
