

Gravity Feed Pneumatic Spray Gun

This pneumatic spray gun is designed for painting applications. It features a gravity-feed design with a durable metal cup and adjustable nozzle for precise control of the spray pattern.

Product Overview

Professional Gravity Feed Spray Gun

This gravity-feed pneumatic spray gun is engineered for high-performance painting applications, ranging from automotive refinishing to furniture production. It features an adjustable nozzle system that provides precise control over spray patterns and flow rates, ensuring a smooth, even finish every time. Designed with an ergonomic handle, this tool minimizes operator fatigue during extended professional use.

Technical Specifications

Feed Mechanism	Gravity Feed
Tool Type	Pneumatic Spray Gun

Key Features

Design Highlights	Gravity-feed design, Adjustable nozzle, Ergonomic handle, Durable metal cup
