Overview

Precision Green Beam Laser Level

This self-leveling cross-line laser level utilizes advanced Osram green laser technology to provide high-visibility alignment lines for construction and installation projects. Engineered for durability and ease of use, it features automatic damping for quick stabilization and an IP54 rating for protection against dust and water. The kit includes a clamp support and necessary batteries, making it a ready-to-use solution for professional leveling tasks.

Technical Specifications

Laser Type	Osram Green Lines
Wavelength	520 Nm
Accuracy	±2mm at 10m
Damping Level	Automatic
Swaying Rest Time	4 seconds

Environmental Ratings

Dust and Water Protection

IP54

Operating Temperature	-10°C to +50°C
Storage Temperature	-20°C to +80°C

Logistics & Packaging

Packaging Information

Metric	Value
Items per Carton	24
Gross Weight per Carton (kg)	17
Net Weight per Carton (kg)	16
