

Grey Terrazzo Texture

This is a seamless, high-resolution texture of a grey terrazzo surface. It is suitable for flooring, wall coverings, or countertops.

Product Overview

Professional Grey Terrazzo Texture

This seamless, high-resolution grey terrazzo texture features a consistent distribution of small, irregularly shaped aggregates in varying shades of grey and white. Set within a uniform grey matrix, it provides a sophisticated speckled appearance suitable for high-end architectural visualization and interior design projects. It is an ideal material representation for flooring, wall coverings, and countertop applications.
