

Hand Saw for Woodworking and Carpentry

This hand saw is designed for efficient cutting and comfortable use. The durable blade ensures smooth and precise cuts, while the ergonomic handle provides a secure grip.

Product Overview

Professional Hand Saw

This high-quality hand saw is engineered for efficient cutting and precise performance in woodworking and carpentry tasks. It features a durable blade design that ensures smooth cuts, while the ergonomic handle minimizes fatigue during extended use. Ideally suited for both professional tradespeople and DIY enthusiasts, this tool offers optimal control and reliability for general cutting applications.

Technical Specifications

Key Features

- Durable blade for smooth and precise cuts
- Ergonomic handle for secure grip
- Reduced fatigue design for extended use
- Suitable for professional and DIY applications

Model Identifier	DT1700
Applications	Woodworking, Carpentry, General Cutting, DIY Projects
