

Handheld Air Blower

This handheld air blower delivers a flow velocity of $90 \pm 5\text{m}^3/\text{h}$ and wind pressure of $22 \pm 5\text{Kpa}$. Operating at 120V 60Hz with a current of 8.5A, it is suitable for various industrial tasks.

Product Overview

Industrial Handheld Air Blower

This industrial-grade handheld air blower is engineered for precision and power in demanding environments. Featuring a robust pistol-grip design, it delivers consistent high-velocity airflow suitable for targeted cleaning or material displacement. Built to meet rigorous safety standards, this unit provides reliable performance for professional industrial applications.
