

Handheld Bagless Vacuum Cleaner

This handheld vacuum cleaner is a lightweight and portable cleaning solution for quick cleanups. It features a bagless dust collection system and includes a floor nozzle attachment and extension wand for versatile cleaning.

Product Overview

Versatile Handheld Cleaning

The JC803 is a lightweight and portable vacuum cleaner engineered for high-efficiency cleaning across diverse environments. Its compact, bagless design includes an extension wand and floor nozzle, making it an ideal choice for cleaning floors, upholstery, and difficult-to-reach areas. Designed with ergonomics in mind, the unit features an easy-to-grip handle for sustained comfort during extended use.
