

Handheld Cage Work Light with Hook

This handheld work light is designed for providing illumination in various work environments. It features a durable yellow handle for a comfortable grip and a protective metal cage surrounding the bulb to prevent damage.

Product Overview

Professional Handheld Work Light

This durable handheld work light is engineered for reliability in demanding work environments. Featuring a protective metal cage to shield the bulb from impact, it ensures consistent illumination where you need it most. The integrated hook allows for versatile, hands-free positioning, making it an essential tool for maintenance, construction, and inspection tasks.

Design & Construction

Handle Design	Ergonomic yellow handle
Protection	Protective Metal Cage, Impact Resistant
Mounting	Integrated hanging hook
