

Handheld Glass Wiper with Ergonomic Handle

This handheld glass wiper is designed for cleaning glass surfaces. It features an ergonomic handle and a flexible blade for streak-free cleaning.

Product Overview

Professional Glass Cleaning Solution

This handheld glass wiper is engineered for efficiency and comfort, featuring an ergonomic handle that reduces hand fatigue during extended use. The flexible rubber blade ensures streak-free performance on various glass surfaces, including windows and mirrors. Designed for versatility, it is an excellent tool for automotive, household, and commercial cleaning applications.
