Overview

Industrial-Grade Data Destruction

This high-performance hard drive shredder provides an essential security solution for organizations requiring absolute data destruction. Utilizing robust rotary blades and a reliable PLC control system, it physically pulverizes HDDs and SSDs to prevent any possibility of data recovery. Designed for both office and factory environments, this mobile unit ensures compliance with strict data privacy standards while prioritizing operator safety.

Performance Metrics

Throughput

300 pcs

Hard Drives Per Hour

20 seconds

Shredding Time

Security Level

DIN 66399: H-4

Technical Specifications

Dimensions	1130 (L) x 570 (W) x 1110 (H) mm
Weight	560 KG
Power Supply	2.2KW / 3 Phase, 380V / 50HZ
Collection Bin Capacity	20 L

Shredding Mechanism

Blade Configuration

Feature	Specification
Blade Thickness	15 mm
Insertion Width	155 x 110 mm
Output Size (HDD)	15mm (Width) x 15-60mm (Length)

Operational Features

Control Interface	PLC Control, Touch Screen, Emergency Stop, Mobile Casters
