

Hardened Steel Splitting Maul with Fiberglass Handle

This splitting maul is designed for splitting tough logs with ease. It features a heavy maul head made from hardened steel for maximum splitting power and durability.

Product Overview

Professional Grade Splitting Maul

This splitting maul is engineered for high-performance wood splitting, featuring a heavy-duty head crafted from hardened steel to ensure maximum impact and long-term durability. The ergonomic fiberglass handle is designed to provide a secure, comfortable grip while effectively absorbing shock to minimize user fatigue during extended work sessions. With its high-visibility yellow finish, this tool is an essential, reliable choice for both professional forestry operations and demanding home wood-splitting tasks.

Technical Specifications
