

Heart-Shaped Bamboo Computer Mouse

This heart-shaped computer mouse is made from bamboo. It features a central scroll wheel and standard left and right click functionality.

Product Overview

Natural Elegance Meets Functionality

The MU1520 heart-shaped computer mouse is a unique peripheral crafted from high-quality bamboo, combining an eye-catching aesthetic with standard computing functionality. Its ergonomic heart-shaped design adds a touch of personality to any workspace while maintaining essential left and right click capabilities. This corded device offers a reliable connection, making it an ideal choice for eco-conscious professionals seeking a blend of style and practicality.
