

Heating Torch with Double Color Handle

This heating torch is designed for soldering, brazing, and heat treating applications. The double-color handle provides improved ergonomics and reduces slippage during use.

Product Overview

Professional Heating Torch

This high-performance heating torch features a durable construction designed for consistent, reliable operation. Equipped with a specialized double-color handle, it offers enhanced ergonomics and a superior grip to reduce slippage during extended use. It is an ideal tool for a variety of professional heating applications, including soldering, brazing, and heat treating.

Technical Specifications

Model Number	HT1072
Handle Design	Double color ergonomic grip

Applications

Suitable For	Professional Use • DIY Applications
Primary Applications	Soldering, Brazing, Heat Treating
