

Heavy Duty Adjustable Wrench

This heavy-duty adjustable wrench is made from carbon steel or CRV. It features a precisely crafted jaw and thumbwheel design.

Overview

Professional Grade Heavy Duty Adjustable Wrench

This jumbo-sized adjustable wrench is engineered for high-torque industrial applications, featuring a robust drop-forged and heat-treated construction. The precisely crafted jaw and thumbwheel design ensure smooth adjustment and a secure grip on various fastener sizes. Built to meet rigorous international standards, it is an essential tool for heavy-duty plumbing, automotive repair, and general maintenance.

Material & Construction

Manufacturing Process

- Drop forged for superior strength
- Heat treated for enhanced durability
- Precisely crafted jaw
- Precision thumbwheel design

Material

CRV, Carbon Steel
