

Heavy Duty Automatic Truck Tire Changer

This heavy-duty tire changer is designed for removing and installing tires on trucks and other large vehicles. It features a powerful hydraulic system and pneumatic mechanisms for secure clamping and precise adjustments.

Overview

Heavy Duty Automatic Truck Tire Changer

This heavy-duty truck tire changer is engineered for the efficient and safe servicing of large vehicle tires. It features a robust hydraulic system and is constructed with high-density components to ensure durability and longevity in demanding workshop environments. Designed with user safety and operational precision in mind, this equipment meets CE standards for quality and performance.

Technical Specifications

Model	TC990A
Operating Pressure	140 bar
Noise Level	<75dB
Rim Diameter Range	14" to 26"

Performance Metrics

Key Operational Capacities

1600 mm

Max Wheel Diameter

760 mm

Max Wheel Width

1500 KG

Max Wheel Weight

Power & Mechanics

Motor Specifications

Component	Power	Voltage/Phase/Freq
Hydraulic Pump Motor	1.5kw	380V/3Ph/50Hz
Gearbox Motor	1.8kw	380V/3Ph/50Hz

Compliance & Quality

Certifications & Standards	CE Certified, E-Grade Electrical Cabinet
