

Heavy-Duty Cast Iron Grate for Industrial and Roadway Drainage

This durable cast iron grate is designed for heavy-duty applications. It features a robust construction with parallel bars for optimal load distribution and efficient drainage.

Product Overview

Heavy-Duty Cast Iron Drainage Solution

This heavy-duty cast iron grate is engineered for demanding industrial and roadway drainage applications. Its robust construction features parallel bars designed for optimal load distribution, ensuring durability under significant pressure. Resistant to corrosion and wear, this grate provides a reliable, long-lasting solution for complex drainage systems while maintaining ease of installation and maintenance.

Technical Details

Key Features

- Heavy-duty construction
- Corrosion resistant
- Wear resistant
- Easy installation
- Efficient drainage design

Material	Cast Iron
Suitable Applications	Industrial Settings, Roadways, Drainage Systems
