

Heavy-Duty Hand Trolleys for Material Handling

These heavy-duty hand trolleys are designed for various load capacities and applications. The trolleys feature robust construction with varying body sizes and wheel specifications to ensure durability and efficient material handling.

Product Overview

Professional Material Handling Solutions

These heavy-duty hand trolleys are engineered for demanding industrial and commercial environments, offering robust construction for reliable material transport. With a diverse range of models available, they accommodate varying load capacities and operational requirements. Designed for durability and efficiency, these trolleys provide an essential solution for moving goods safely and effectively across warehouse and logistics facilities.

Applications

Industrial, Commercial, Warehouse, Logistics

Technical Specifications

Model Specifications

Model	Dimensions (LxWxH)	Wheel Size	Capacity
HT1283	1295x546x510mm	10"x3.5"	200
HT1824	1275x614x560mm	10"x3.5"	250
HT1285	1397x550x510mm	10"x3.5"	200
HT1842A	1440x550x6701mm	10"x3.5"	250
HT1503	1200x415x330mm	7.5"x1.2"	50
HT1510	1300x438x365mm	8"x1.75"	120
HT1500A	935x455x372mm	7.3"x3"	50
