

Heavy-Duty Lifting Chain

This high-strength lifting chain is designed for heavy-duty applications. It features a robust link construction for maximum load-bearing capacity and durability.

Product Overview

Heavy-Duty Lifting Chain

This high-strength lifting chain is engineered for demanding industrial environments, featuring quenched and tempered alloy steel construction for maximum security and durability. Designed for overhead lifting applications, these chains offer exceptional anti-impact properties, high loading capacity, and reliable ductility. With a safety factor of at least 4 times, they are suitable for construction, rigging, and various industrial hoisting operations.

Technical Specifications

Material	High-quality low-carbon alloy steel
Quality Grade	G80, G100
Safety Factor	4
Breaking Strength	800 MPA
Standards Met	ISO, DIN, BS, JIS, ASTM, DIN5687, DIN5688, ISO3076

Dimensions & Customization

Leg Configurations

- Single leg
- Two leg
- Three leg
- Four leg

Thickness Range	6mm to 32mm
Available Lengths	1m to 10m

Surface Treatment

Available Surface Treatments

Self-colour • Polishing • Black • Plastic coating • Hot-dip galvanized
