

Heavy-Duty Rotary Hammer Drill

This heavy-duty rotary hammer drill is designed for demolition and construction. It features a robust motor for powerful impact energy and efficient material removal.

Product Overview

Professional Demolition Performance

This heavy-duty rotary hammer drill is specifically engineered for demanding demolition and construction tasks. Featuring a robust motor, it delivers powerful impact energy for efficient material removal in concrete, brick, and stone. Its ergonomic design includes an auxiliary handle, ensuring maximum comfort and precise control during prolonged operation.

Technical Specifications

Electrical Requirements

- 220V
- 50Hz

Power Rating	850 W
Max Drilling Diameter	38 mm
Model Identifier	210-ZT-38

Features

Key Operational Benefits

Heavy-Duty Build • Ergonomic Grip • Auxiliary Handle Included

Suitable Materials	Concrete, Brick, Stone
