

Heavy-Duty Steel Anchor Box

This heavy-duty anchor box is designed for secure anchoring applications. Constructed from robust steel with a black protective coating, it features a central lifting eye for easy handling and positioning.

Product Overview

Industrial Strength Anchoring Solution

This heavy-duty steel anchor box is engineered for superior security in demanding industrial, marine, and construction environments. Its robust construction is fortified with a specialized black protective coating to ensure long-term resistance against corrosion and environmental wear. Designed for efficiency, the unit includes an integrated central lifting eye to facilitate safe and precise positioning during installation.

Technical Specifications

Material	Robust Steel
Surface Finish	Black protective anti-corrosion coating
Lifting Mechanism	Integrated central lifting eye

Application Areas

Suitable Industries	Construction, Marine, Industrial
