

Heavy-Duty Steel Snips

These heavy-duty snips are designed for precise and efficient cutting. They feature high-carbon steel blades for durability and ergonomic handles for a comfortable grip.

Product Overview

Professional Cutting Performance

These heavy-duty steel snips are engineered for high-performance cutting across a variety of demanding materials, including denim, upholstery, and cardboard. Featuring precision-ground stainless steel blades, they offer superior corrosion resistance and lasting sharpness. The ergonomic, spring-action design minimizes hand fatigue, while the integrated wire-cutting notch and serrated grip ensure control and versatility in every cut.

Technical Specifications

Blade Material	Stainless Steel
Length	8 inch
Grip Type	Bi-material serrated

Key Features

Highlighted Features

- Precision-ground blades
- Corrosion resistant
- Spring-action design
- Integrated wire-cutting notch
- Serrated grip for material stability

Applications

Suitable Materials	Denim, Upholstery, Cardboard, Wire
