

Heavy Duty Stump Removal Machine

This heavy-duty stump removal machine is designed for efficient and powerful stump removal. It features a robust steel frame and a high-performance engine, ensuring durability and reliability in demanding environments.

Product Overview

Professional Stump Removal Solution

This heavy-duty stump grinder is engineered for efficient and reliable land clearing, suitable for both landscaping professionals and demanding rental applications. Featuring a robust steel frame and a high-performance engine, it offers powerful grinding capability down to 16 inches below ground level. The machine is designed for ease of use with adjustable handlebar positions, a convenient emergency stop device, and a towable design for simple transport between job sites.
