Product Overview

Professional Tire Service Solution

This heavy-duty truck tire changer is engineered for efficient and safe tire removal and installation on trucks, buses, and large-scale vehicles. It utilizes a robust hydraulic system to deliver powerful clamping and bead breaking force, ensuring the secure handling of even the largest tires. Designed for high-volume service centers and fleet maintenance facilities, this equipment prioritizes both operator productivity and the integrity of the tire and rim assembly.

Technical Specifications

Core Performance Metrics

1 High

Hydraulic System Efficiency

1 Robust

Clamping Power

Design & Ergonomics

- Ergonomic operator controls
- Adjustable components for various tire sizes
- Damage-prevention tool configuration
- Durable construction for workshop environments

Compatibility

Supported Vehicle Types

Heavy-Duty Trucks, Buses, Large Commercial Vehicles
