Product Overview

Heavy-Duty Performance

This 5-ton wheel loader is engineered for high-efficiency material handling in demanding environments like construction and mining. It features proprietary fuel-efficient technologies, including an automatic cooling system for the brakes and a reinforced, dust-proof axle design for extended durability. The operator cabin prioritizes comfort and visibility, utilizing an electronic gearshift and pilot control system for precise operation.

Technical Specifications

Hydraulic System

- Double pump confluence
- Equivalent unloading hydraulic system
- Independent transmission oil cooling
- Independent hydraulic oil cooling

Rated Capacity

5 ton

Control System

Single or double-handle pilot control with electronic gearshift

Durability & Design

Cabin Features

Broad view • Humanized design • Ergonomic controls

Durability Features

Dust-proof axle layer, Sealed articulated points, Reinforced hinge pins, Auto cooling brake system

Versatility

Optional Attachments

- Floating forks
- Tire chain
- Log grapple
- Block fork
- Snow blade
- Grass fork
- Enlarged bucket
- Bucket teeth

Compliance & Warranty

Warranty Terms

1 yr

Warranty Period (Years)

2000 hrs

Warranty Period (Hours)

Certifications

ISO 9001:2008, CE, EPA
