

Hex Bolts and Nuts for Construction Equipment

These hex bolts and nuts are designed for use in construction equipment. They provide strong and reliable fastening for demanding applications.

Product Overview

High-Performance Construction Fasteners
 These hex bolt and nut assemblies are specifically engineered for heavy-duty construction equipment applications. Designed to withstand significant mechanical stress and harsh operating environments, they provide reliable fastening solutions for critical machinery components. Our range includes a wide variety of standardized sizes to ensure compatibility with diverse equipment needs.

Industry Experience 20 Years

Technical Specifications

Dimensions and Weight		
Part No.	Measurement	Weight (kg)
-	1/2" UNF-20*2-1/4"	0.081
