

High-Carbon Steel Hand Saw for Woodworking

This professional-grade hand saw is designed for precision cutting of wood and other materials. It features a high-carbon steel blade for durability and sharpness, ensuring clean and efficient cuts.

Overview

Professional Woodworking Saw

This professional-grade hand saw is engineered for precision cutting in woodworking, carpentry, and general construction applications. Featuring a durable high-carbon steel blade, it delivers clean and efficient cuts while maintaining sharpness over time. The design prioritizes user comfort with an ergonomic handle that ensures a secure grip and reduces fatigue during extended work sessions.

Technical Specifications

Blade Material	High-Carbon Steel
Model Identifier	DT1712

Features

Key Features

- High-carbon steel blade for durability
- Precision cutting capability
- Ergonomic handle design
- Reduced fatigue during extended use
- Secure grip

Applications

Primary Usage	Woodworking, Carpentry, Construction
