Product Overview

High-Intensity Patrol Flashlight

This explosion-proof LED flashlight is engineered for reliability in demanding security and patrol environments. Featuring a robust design with an IP67 protection grade, it ensures performance in harsh conditions while delivering powerful illumination. With multiple lighting modes and long-lasting battery life, it is an essential tool for professionals requiring consistent, high-intensity light.

Technical Specifications

Protection Grade

IP67

Light Source Power

3 W

LED Lifespan

100000 h

Luminous Flux

e100n

Power & Battery

Rated Voltage

3.7 V

Rated Capacity

2.6 Ah

Battery Type

Lithium battery

Battery Cycle Life

1000 cycles

Performance Metrics

Discharge Times by Mode

8 h

Strong Light

16 h

Working Light

40 h

Strobe Light

Physical Dimensions

Weight	210 g
Dimensions	35*157mm
