

# High-Leverage Insulated Pliers

These high-leverage pliers are designed for cutting and gripping tasks. They feature durable metal construction and ergonomic grips for comfortable use and precise control.

## Product Overview

### High-Leverage Insulated Pliers

These high-leverage insulated pliers are engineered for demanding professional tasks requiring both strength and precision. Featuring durable metal construction, they provide reliable cutting and gripping capabilities for a wide range of electrical and mechanical applications. The ergonomic insulated handles ensure operator comfort and safety during extended use, offering superior control.

## Technical Specifications

Material	Durable metal construction
Handle Design	Ergonomic insulated grips

## Key Features

Applications	Electrical Work • Mechanical Maintenance • General Construction
Functions	Cutting, Gripping
