

High-Performance Coating Spray Gun

This spray gun is designed for a variety of coating applications. It features adjustable spray pattern and efficient material delivery and is suitable for automotive, industrial, and woodworking projects.

Overview

Professional Coating Performance

The J4001 High-Performance Coating Spray Gun is engineered for versatility across automotive, industrial, and woodworking sectors. Designed for durability and precision, it ensures efficient material delivery and consistent, professional finishes. Its user-friendly design helps operators minimize overspray while maintaining high-quality output on varied surfaces.

Technical Specifications

Key Features

- Adjustable spray pattern
- Durable construction
- Efficient material delivery
- Minimal overspray design

Model Number	J4001
Suitable Applications	Automotive, Industrial, Woodworking
