

High-Performance Industrial Ventilator

This high-performance ventilator is designed for efficient air circulation and drying. It is ideal for use in construction, restoration, and industrial applications, providing focused airflow for quick drying and ventilation of confined spaces.

Product Overview

High-Performance Industrial Ventilator

This industrial-grade ventilator is designed for heavy-duty air circulation and drying applications. It features a robust design optimized for construction, restoration, and confined space ventilation, providing powerful, focused airflow. With its reliable motor and compact dimensions, it is an essential tool for environments requiring rapid moisture removal or improved air quality.

Technical Specifications

Performance Metrics

100 W Power Consumption	120 V Voltage	60 Hz Frequency
-----------------------------------	-------------------------	---------------------------

Rotation Speed	1520 RPM
----------------	----------

Logistics and Shipping

Container Loading

Container Type	Capacity
20ft Container	1008
40ft Container	2016

Dimensions and Weight

- Carton Size: 48 x 33 x 33.5 cm (2 PCS per carton)
- Gross Weight: 9.5 kg
- Net Weight: 8 kg

Compliance

Certifications	CSA
