Overview

High-Performance Grinding Power

This high-power angle grinder is engineered for demanding metal and wood surface preparation, offering exceptional torque through an innovative air-cooling motor design. Featuring a robust aluminum gear box and a user-friendly ergonomic barrel grip, it ensures both durability and comfort during extended operation. The tool is equipped with professional-grade safety features, including an anti-fracture protective cover and a soft-start function for stable, controlled performance.

Technical Specifications

Input Power	2000 W
No-Load Speed	8500/6500/min
Disc Diameter	180/230mm
Spindle Thread	M14
Machine Dimensions	482 x 133 x 107mm
Weight	4.5 kg

Features

Key Performance Features

- Soft start function for stability
- Innovative air-cooling motor design
- External carbon brush for easy replacement
- 180-degree rotatable main handle
- Full aluminum gear box

Safety & Ergonomics

Spindle lock, Anti-fracture cover, Sparkproof, Adjustable side handle, Ergonomic barrel grip
