

High-Pressure Bicycle Foot Pump with Gauge

This high-pressure foot pump is designed for inflating bicycle tires and other inflatables. It features a durable steel frame, dual cylinders for faster inflation, and a built-in pressure gauge for accurate inflation.

Product Overview

Professional High-Pressure Foot Pump

This high-pressure foot pump is engineered for efficiency and durability, featuring a robust steel frame and a dual-cylinder design that significantly reduces inflation time. Equipped with an integrated, easy-to-read pressure gauge, it ensures precise inflation for bicycle tires and other inflatables. Its compact, portable build makes it an ideal solution for both workshop use and on-the-go maintenance.

Technical Specifications

Build Material	Steel
Inflation Mechanism	Dual Cylinder
Valve Compatibility	Schrader, Presta
Pressure Gauge Included	Yes

Key Features

Performance Highlights

2 cyl
Cylinder Count

Design Advantages

- High-pressure output
- Compact and portable design
- Universal valve adapter
- Durable steel frame construction
