

High-Pressure Triplex Plunger Pump

This high-pressure triplex plunger pump is engineered for demanding applications requiring consistent and reliable performance. The pump features a robust construction with a durable brass manifold and a die-cast aluminum crankcase for optimal heat dissipation and extended service life.

Overview

High-Performance Triplex Plunger Pump

This high-pressure triplex plunger pump is engineered for demanding industrial cleaning, pressure washing, and fluid transfer applications. It features a robust brass manifold and a die-cast aluminum crankcase, ensuring excellent heat dissipation and a long service life. With precision-machined components and high-quality seals, it provides consistent performance and reliable operation under pressure.

Performance

Flow Rates

13 L/min

Flow at 2850 RPM

15 L/min

Flow at 3450 RPM

Maximum Pressure

150 bar

Technical Details

Model Specifications

Feature	Detail
Model Number	3WZ 1608
Manifold Material	Brass
Crankcase Material	Die-cast Aluminum

Key Features

Triplex Plunger Design, Heat Dissipation, High-Quality Seals, Easy Maintenance
