

# High-Pressure Triplex Pump

This is a high-pressure washer featuring a robust triplex pump system. It is engineered for efficient fluid transfer and high-pressure capabilities.

## ADDITIONAL IMAGES

## Product Overview

### Industrial High-Pressure Cleaning Solution

This 15 series triplex pump is engineered for demanding industrial applications requiring reliable high-pressure fluid transfer. The unit features a robust, heavy-duty steel frame and is mounted on a wheeled cart to ensure excellent mobility across job sites. With its integrated hose reel, this pump provides an efficient and organized solution for high-performance cleaning and fluid handling tasks.

## Technical Specifications

Pump Series	15 Series
Design Type	Triplex Pump

## Construction & Features

### Integrated Accessories

- Hose reel
- High-pressure hose
- Gasoline engine

Frame Material	Heavy-duty steel
Mobility	Wheeled cart

## Performance & Application

Key Capabilities	High-Pressure, Industrial Grade, Extended Service Life, Fluid Transfer
