Overview

High-Performance Drain Cleaning Solution

This high-pressure water jetting machine is engineered for professional drain line maintenance, capable of servicing lines from 50mm to 300mm. Powered by a robust 22HP gasoline engine, it delivers a consistent 2500psi working pressure to clear stubborn blockages efficiently. The inclusion of a pulse function and a safety-focused foot pedal makes it a versatile and reliable tool for demanding industrial and commercial cleaning tasks.

Performance Specifications

Working Pressure

2500 psi

Pressure

172 bar

Pressure

Flow Rate

45 lpm

Flow

11.9 gpm

Flow

Technical Details

Engine Power	22 HP
Hose Length	60 m
Hose Diameter	9.5mm (3/8")
Machine Weight	158 kg

Capabilities

Standard Kit Components

- Foot Pedal
- 30° Propulsion Nozzle
- 15° Penetrating Nozzle
- Hose Reel
- Cleaning Lance with Brass Turbo Nozzle

Compatible Drain Lines

50mm to 300mm (2" to 12")

Key Features

Pulse Function, Safety Foot Pedal, Gasoline Powered, High-Pressure Jetting
