

High-Speed HDMI 2.1 Cable for 8K and 4K Video

This is a high-speed HDMI 2.1 cable that supports 3D video. It delivers 8K resolution at 60Hz and 4K resolution at 120Hz with a 48Gbps bandwidth.

Overview

High-Performance HDMI 2.1 Connectivity

This high-speed HDMI 2.1 cable is engineered for demanding audio and video applications, supporting ultra-high resolutions including 8K at 60Hz and 4K at 120Hz. With a robust bandwidth of 48Gbps, it ensures seamless data transmission for immersive gaming and cinematic experiences. Designed with precision shielding and high-quality materials, this cable provides reliable performance for modern display setups.
