

High-Velocity Floor Fan with Adjustable Tilt

This high-velocity floor fan is designed for powerful air circulation. It features a durable metal construction with an adjustable tilt head and a sturdy U-shaped base.

Product Overview

High-Velocity Air Circulation Solution

This industrial-grade floor fan is engineered to provide powerful air circulation in demanding environments such as workshops and garages. Constructed from durable metal with a professional chrome finish, it ensures long-term reliability and aesthetic appeal. The design features a precision-balanced three-blade system and an adjustable tilt head to provide targeted cooling wherever it is needed most.
