

High-Velocity Industrial Stand Fan

This high-velocity industrial stand fan is designed for powerful air circulation. It features a large-diameter fan head with a safety grill, mounted on a sturdy, height-adjustable stand.

Overview

High-Velocity Industrial Performance

This high-velocity industrial stand fan is engineered for powerful air circulation and robust performance in demanding environments. Featuring a large-diameter fan head protected by a heavy-duty safety grill, it ensures both efficiency and operational safety. The unit is mounted on a sturdy, height-adjustable stand with a four-legged base, providing exceptional stability for continuous use in industrial, commercial, and residential settings.

Technical Specifications

Construction Material	Durable metal components
Base Design	Four-legged stability base
Adjustability	Yes

Applications

Primary Use	Cooling • Ventilation • Air Circulation
Suitable Environments	Industrial, Commercial, Residential
