Overview

High-Velocity Professional Ventilation

This high-velocity stand fan is engineered for demanding environments, offering reliable air circulation in high-temperature and high-humidity conditions. Featuring a robust metal construction and a high-quality motor, it provides both durability and efficient airflow performance. The unit is designed for versatile use across residential and commercial settings, with optional brushless DC configurations available for enhanced energy efficiency.

Performance

Performance Highlights

1150 RPM
Rotation Speed

880 m³/h
Air Volume

50 W
Input Power

Technical Details

Electrical Parameters

Parameter	Value
Voltage	230V
Frequency	50Hz
Current	0.217A
Capacitor	1.5 µF

Physical Dimensions

- Width: 450mm
- Depth: 450mm
- Height: 1180mm

Features

Key Features

High Velocity, Metal Construction, Adjustable Airflow, Humidity Resistant, Commercial Grade
