

High-Velocity Wall-Mounted Industrial Fan

This high-velocity wall-mounted fan is designed for industrial and commercial applications. It features a powerful motor, durable construction, adjustable tilt, and a protective cage for user safety.

Product Overview

Industrial Air Circulation Solution

The High-Velocity Wall-Mounted Industrial Fan is engineered for demanding environments such as warehouses, workshops, and large commercial spaces. Featuring a robust motor and heavy-duty construction, it delivers consistent airflow to maintain optimal working conditions. The adjustable tilt mechanism allows for precise air direction, while the reinforced safety cage ensures secure operation in high-traffic areas.

Performance Metrics

Airflow Type	High-Velocity
Key Features	Wall-Mounted, Adjustable Tilt, Industrial Grade, Safety Cage

Applications

Best For

- Warehouses
- Workshops
- Large Commercial Spaces
- Manufacturing Facilities
