Product Overview

Professional High-Visibility Protection

This high-visibility rain coat is engineered for safety and durability in demanding outdoor environments. Constructed from polyester with a protective PVC coating, it ensures reliable waterproofing during wet weather conditions. The design features reflective tape and adjustable elements to maintain visibility and comfort for workers in construction, traffic control, and other outdoor industries.

Technical Specifications

Material	Polyester with PVC coating
Reflective Tape Width	2.5 cm

Design & Features

Closure System	Front plastic zipper, Velcro closure
