

High-Visibility Work Gloves with Leather Palm

These work gloves are designed for enhanced visibility and durability in demanding work environments. They feature a high-visibility orange back with a reflective strip and a durable white leather palm for excellent grip.

Product Overview

High-Visibility Safety Gloves

These premium work gloves are engineered for enhanced visibility and rugged durability in demanding environments. Featuring a high-visibility orange back with an integrated reflective strip, they ensure increased safety during low-light operations. The durable white leather palm offers superior grip and hand protection, while the secure black knit wrist ensures a comfortable and snug fit for all-day wear.
