

Home Automation Security Camera

This smart home camera detects both sounds and motion. It has two-way audio and connects with the Tuyasmart app on iOS and Android.

ADDITIONAL IMAGES

Product Overview

Comprehensive smart camera with motion detection and mobile app integration.

Professional Smart Home Monitoring

This high-definition security camera provides reliable indoor surveillance with intelligent motion and sound detection alerts directly to your mobile device. Featuring a flexible pan-and-tilt mechanism and a wide-angle lens, it ensures comprehensive coverage of your space. Integration with popular smart home platforms allows for seamless remote control and two-way audio communication, making it an ideal solution for modern property security.
