

Hook and Loop Sanding Discs and Sheets Set

This set contains sanding discs and sheets in various grits for diverse sanding tasks. The hook and loop backing on the round discs allows quick changes on orbital sanders, while the rectangular sheets are suited for hand sanding or sanding blocks.

Product Overview

Professional Finishing Solutions

These hook and loop sanding discs and sheets are designed for ultra-fine sanding and polishing applications. Featuring a specialized stearated coating, they effectively prevent clogging and offer anti-static properties for a cleaner work environment. Built with a resin bond and semi-friable abrasives on a durable velcro backing, these products deliver high cutting efficiency and a long service life.

Technical Specifications

Grit Range	P320 - P5000
Abrasive Material	Semi-friable
Bonding Agent	Resin
Backing Type	Velcro (Hook and Loop)
Key Features	Anti-static, Anti-clogging, Stearated coating, Flexible

Usage & Compatibility

Available Formats

- Velcro Discs
- Sheets
- Narrow Rolls

Suitable Industries

Automobile Repair • Musical Instrument Manufacturing

Compatible Equipment

- Hand sander
- Pneumatic sander machine
